

REPORT ON THE PAVILION DESIGN FOR BITOTSAV (2023)

Date of Event : 9th February, 2023

No. of Participants : 20

The Students' Society of Architecture successfully designed and coordinated the execution of a Pavilion in the Inner Circle for Bitotsav (2023). The Pavilion was designed to act as the Information Cell for the annual fest held from the 9th of February, 2023 to 12th of February, 2023.

The design for the Pavilion was finalised by the Design Team of SSA (2023), in multiple brainstorming sessions for a week before the fest. The execution was also supervised by the members of SSA (2023). The Pavilion was a prime highlight of the fest for its minimal yet magnificent demeanour, and turned into a space for mass activity within hours of its completion.

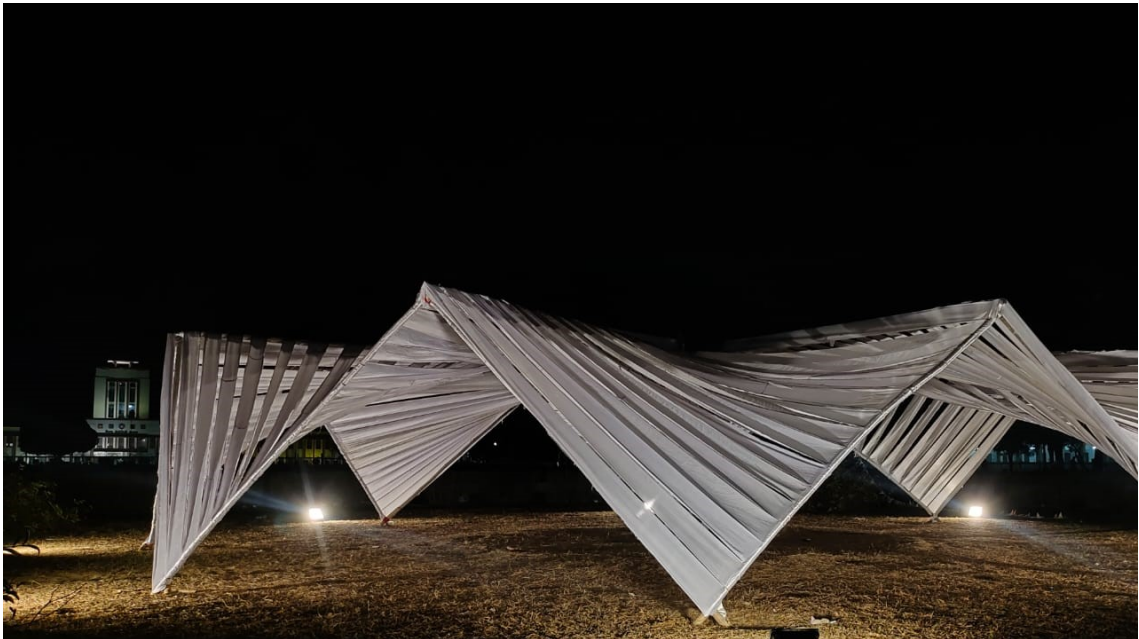

We extend our heartfelt appreciation to the Resource Team of Bitotsav (2023) for their timely help in acquisition of necessary resources for execution of the design and the students of Department of Architecture and Planning, BIT Mesra for their inputs throughout the design and execution processes. We would also like to thank Dr. Smriti Mishra, Head of Department of Architecture and Planning, BIT Mesra and Ar. Apurv Ashish and Ar. Abhinandan Bera, the Faculty Coordinators of SSA (2023), for their continuous support.

Pavilion construction in process.

Pavilion nearing completion.

Completion of Pavilion.
