

Departmental Seminars:

On 20th February 2020, Mathematics Department, Birla Institute of Technology started their series of departmental seminar. The first two seminars to be held were:

1- Monotone Scheme for Solutions of Fractional Differential Equations- given by Mr Satyam Srivastava from 10th Semester

2- Pitching of Start-Up idea- Mechanic on Wheels by Utkarsh, Hritik, Nagendra and Ashok

Mechanic on Wheels-

Overview:

Mechanic on Wheels (MeOW) is working to solve a very critical problem in India. Everyone knows that it is very important to get your two-wheelers serviced on time, but in this busy lifestyle hardly anyone finds time for it. So, if you are finding difficulty in maintaining your work-life balance, don't let getting your vehicle serviced come in between. Whether it is picking your vehicle from home or from your office, MeOW does it all. MeOW also provides on-road assistance to vehicle facing breakdown on road.

With the notion of creating social impact, MeOW wants to create value in the lives of Mechanics as well by generating more revenue for them.

Achievements:

- 1- First prize winner of BITOSA Mumbai BIZ fête, winning a cash prize of INR 50000. In the event, only 4 teams from BIT Mesra were selected.

- 2- Second Prize winner at City Pitch conducted by Janhit Jagaran in Ranchi.
