

Glimpses of Research Facilities

Aerodynamics

Subsonic wind tunnels

$150 \times 300 \text{ mm}^2$, 10 m/s

$600 \times 600 \text{ mm}^2$, 30 m/s

Supersonic wind tunnels

$50 \times 100 \text{ mm}^2$, $M = 1.2-2.5$

$100 \times 150 \text{ mm}^2$, $M = 1.5-3.5$
