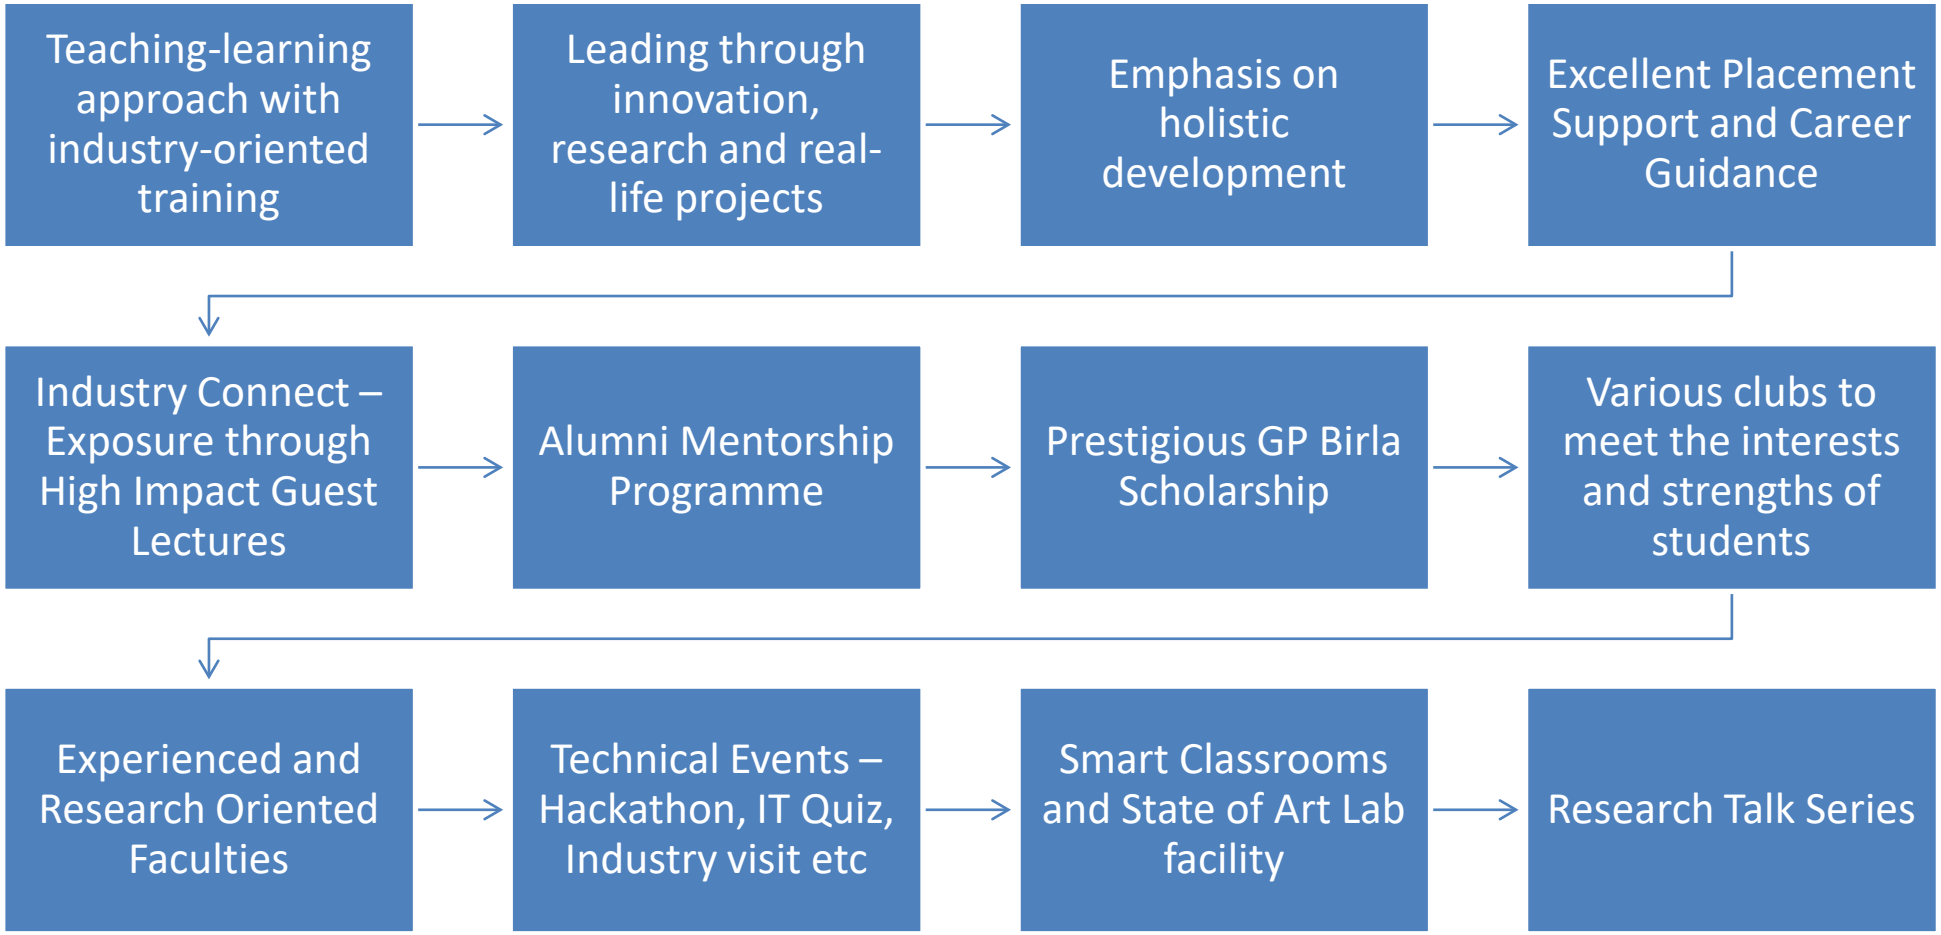
Birla Institute of Technology, Mesra (Ranchi)

Department of CSE, Off Campus Noida

USP of MCA



Teaching-learning approach with industry-oriented training
Leading through innovation, research and real-life projects
Emphasis on holistic development
Excellent Placement Support and Career Guidance
Industry Connect – Exposure through High Impact Guest Lectures
Alumni Mentorship Programme
Prestigious GP Birla Scholarship
Various clubs to meet the interests and strengths of students
Experienced and Research Oriented Faculties
Technical Events – Hackathon, IT Quiz, Industry visit etc
Smart Classrooms and State of Art Lab facility
Research Talk Series

MCA

Success Stories

Saurabh Shukla
2010-2013

Saurabh Shukla is a highly accomplished individual who has achieved remarkable success throughout his career journey. He graduated with a Master's degree in Computer Applications in 2013 and started his professional life as a Business Analyst- Analytics at EXL Services. He then joined Centurylink Technologies as a Data Scientist, where he skillfully handled statistical data modeling in the Telecom and Utility Infrastructure Maintenance domains. Saurabh later joined GlobalLogic as a Senior Consultant and made significant contributions to the delivery side, managing the Data Science team.

In 2019, Saurabh joined TCS as a Senior Data Scientist, where he showcased his expertise in Manufacturing and Oil & Gas domains. He also took on the responsibility of training associates in Artificial Intelligence and Machine Learning. Saurabh progressed to become the Program Manager of the AI Practice team, undertaking the management of AI COE work and providing valuable consulting services.

Saurabh has received multiple rewards and recognition throughout his career, and his passion for AI in higher education led him to write a white paper on the subject. His success story serves as an inspiration to aspiring professionals in the field of Data Science and Analytics, highlighting the achievements that can be reached through determination, hard work, and expertise.

Arpita Kumari
2006-2009

There is a very thin line between success and failure. For me , success is always doing my best in life and achieving the desired goal.

When I look back as a student, for me success was the achievement of a desired goal, like getting admission to a good college, a good job.

In this line, when I was preparing for my MCA, I got selected in number of colleges. It was a tough decision to make, as no one had done MCA from my family members earlier.

From all those institutes, I selected BIT, as it is big brand name everywhere. Most important thing, my parents supported me blindly and I am happy with no regrets at all.

I joined BIT Noida campus which added an edge to my personality that helped in my carrier growth. My professors supported me so well that by the end of the course, I had been selected in one of the top company named “TCS”.

Poonam Jain
2006-2009

Definition of success varies from day to day. The first step in my success ladder was with the campus placement took place in BIT Noida in the year 2008. Yes, I am proud to be called as BIT Noida Alumni, 2009 pass-out MCA batch. BIT showed me a vivid vision and path to begin with. The teachers and staff were very supportive. One of my favourite is Mrs. Muntaha Ahmad. Her guidance and soft nature always illuminated our mind in right direction. The curriculum was vast along with practical experience. The campus placement in the last year of the course was outstanding with the participation of top companies and firms. Many companies offered training in the last semester which was a mindful experience for the students. And so was provided by Aricent Technologies, my first company. Aricent was the second company which visited our campus for placement. Other companies which lined up were Accenture, HCL and many more.

Ritu Pathak
2006-2009

At the outset I would like to express my thanks to all participants of my professional education journey at BIT , Lecturers, my companion students and all acquainted Bit members .

Apart from education I had learned the most valuable things: how to cope up with unprecedented challenges , self-standing , self-decision taking .These qualities let me do what I wanted .

Though I am not a good writer, here I will try to briefly summarize my professional journey laconically .

Post BCA ,MCA I attended two companies in campus placement in college and I am feeling lucky since I was not selected and it was a tough time as recession was at peak ,though their other opportunities opened for job however my mind was pushing me to do something different . After completion of Entrepreneurship mgmt. from IIT Delhi ,I went back to my hometown Ranchi and started exploring agriculture business potential ,the main cause behind this was to make Big work opportunities to mass no. of Locals .
